To Whom It May Concern,

I am writing to offer my full support of the Michigan Consumer Evaluation Team (MCET), Inc.

Easter Seals of Michigan is a major mental health provider for children and adults with mental illness in Michigan. We've contracted with MCET to provide us with valuable input from our consumers, which helps us deliver consumer responsive and appropriate services and supports.

The MCET methods are sound and reliable. They incorporate one on one interviews with consumers by their trained interview staff (most of which are also consumers themselves). The reports we received from their investigation are detailed, objective and very helpful to our management team and Board.

I whole heartedly support, and encourage you to support, MCET. We have not found a better way to assess our services as thoroughly and objectively.

Please contact me directly if I can offer any additional support for this worthy organization.

Sincerely yours in service,

John R. Cocciolone,
President / CEO

Easter Seals provides therapy and support services for children and adults with disabilities and their families
